Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I, Claims 1-22, 29-31, 32-35, 36-39, 46-49, drawn to executing a business process, assigning task, classified in Class 705, subclass 8.

Group II, Claims 23-28, 40-45, drawn to optimizing a business process involving searching a database for business process models to compare, classified in Class 707, subclass 2.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I - II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each of the respective inventions has a separate utility as in a system not having the others. See M.P.E.P. § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for the other Groups, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. It is noted that the Examiner is to contact Applicant to request an oral election to the above restriction requirement, however, there is no telephone number for Applicant on record.

6. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Miranda Le whose telephone number is (571) 272-4112. The examiner can normally be reached on Monday through Friday from 8:30 AM to 5:00 PM.
